DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 4, the phrase "and/or" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "and/or"), thereby rendering the scope of the claim(s) unascertainable.

Regarding claim 5, the phrase "may be" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

In claims 7 and 21, the claims are defining a narrower limitation in an already defined limitation with the reference of "preferably". This is not allowed within the same claim. In another dependent claim, the applicant is allowed to say, for instance, --wherein the "spikes" of claim ____ are "barbed"--.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

flexible and made from plastic. In reference to claim 4 and 5, the attaching means is a cured adhesive with a liner (19,20). Regarding claim 9, 18,19 and 20, the finishing member (10) has a downwardly directed channel, is able to be cut to size, and is adapted to engage a floor (21) and a wall (15).

Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #5,195,287 to BRUGGINK. BRUGGINK discloses the use of a floor finishing

unit (100) including a upper section (14), a lower section (26), wall backing part (30), floor facing part (FC) and attaching means (18). Regarding claim 8, the unit (100) includes one or more holes (26).

Allowable Subject Matter

Claims 6,10-17 and 21-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
